SAFE SITTER CLASS

Parents aren't just concerned about their teens being ready to babysit. They want to be sure their teens are prepared for anything, whether babysitting, watching younger siblings or staying home alone. A Safe Sitter class isn't just about training teens to babysit. It prepares them for so much more! It doesn't just give teens the skills they need to be safe. It also gives parents peace of mind (and what parent wouldn't want that?).

Upland Hills Health, Dodgeville, is offering a Safe Sitter® class on Tuesday, December 30th. Call 930-7165 or visit www.uplandhillshealth.org/events

THE 4-H DOG PROJECT--AN OPPORTUNITY TO CONSIDER

Do you have a dog at home? Would you like to work with your dog on some new activities? If so, you should enroll in the 4-H Dog Project! The goal of the dog project is to for 4-H members to learn new ways to have fun with their dogs! You and your dog will also learn new skills while you are having fun.

The Iowa County 4-H training classes –Obedience, Showmanship, Rally, and Agility--are taught by volunteers with a wide range of backgrounds and experiences in the dog breeding, training, and competing world. 4-Hers will be able to participate in three of the four classes. All dogs and handlers participate in Obedience until the team gets a qualifying score in pre-Novice.

Here is some information about these classes and the 4-H Volunteers who will be assisting.

Obedience led by Karolyn Levin and Pam Richardson involves teaching your dog basic obedience commands so that your dog is well-behaved and safer in any setting. The basic objective of obedience is to have dogs that are trained to behave in the home, in public, and around other dogs.

Showmanship with Sharon Shea focuses on how well the dog is shown by the handler. The emphasis is on the handler's presentation of the dog standing still and in motion as well as the 4-Her's knowledge and understanding of the dog's breed. The 4-Her and the dog appear to be part of a team.

Rally will be led by Arnette Small. Rally is a sport in which the dog and handler complete a course that has been designed by the rally judge. In short, Rally is a sport that combines the fast pace of Agility with the exercises of Obedience. Rally promotes fun, enjoyment and teamwork for dogs and 4-Hers!

Agility with Kristen Lynch, Pam Pishion (tentative), and Vicki Hugill-Sprinkel (tentative) combines the elements of a dog's agility, briskness, confidence, and a handler's control over an obstacle course designed for dogs. Agility provides opportunities for a better-conditioned dog and handler and promotes a better-rounded handler/dog team.

Dog Bowl is offered for youth who want to expand their knowledge of dogs and enjoy quiz type activities.

BRING IT BACK REPORTS

My name is Noah Lawinger from the Rockwell Mills 4-H Club. I had the privilege to attend the 4-H Youth Conference at the UW Madison this summer.

The four day event was filled with many fun opportunities to meet fellow 4-Hers from around the state. The activities I participated in included touring the Capitol, helping set up Art Fair On the Square, a photo composition class, windsurfing, and learning about stem cells. My favorite seminar was learning how to windsurf because it was a challenge I never tried before. The stem cell seminar was very interesting because we learned the proper procedure handling stem cells in a lab setting. I really enjoyed meeting all of the nice 4-Hers from different areas of the state. The dorm living experience provided a sense of freedom. We were also able to visit State Street during our free time. The staff at Youth Conference was energetic and overall the programs were well organized. I would highly recommend this trip to any 4-Her!!

CLOVERBUD CORNER

Feathers, Seeds, Pinecones, and Rocks, Oh My!

Fall is a great time to enjoy the Outdoors and one fun thing to do while you are outdoors is to start a collection. Below are some ideas for things you might explore and collect.

→ Leaves: These are colorful, come in different sizes and shapes, and make sounds.

→ Rocks: Collect several, then paint and put them into a shape of an animal such as a fish.

→ Feathers: Look at colors, texture, and shape.

→ Dead tree bark: Make rubbings from dead bark. Each tree has a different pattern so they will be unique! Identify the tree the bark came from by looking in a reference book.

→ Seeds: Make mosaics with seeds you collect. Open the seeds to see what they look like inside.

→ Pinecones: Search for different sizes. Consider drying them in the oven or placing them in a zip top bag in the freezer for a day to kill any insects.

→ Paw prints: Make rubbings or photos of prints. Use reference books to identify the animal.
